

**Project**  
Powerhouse Module and Flotation Module  
**Client**  
Tech Cominco Alaska  
**Location**  
Red Dog Mine Operations, Kotzebue, Alaska

### Project Scope:

Tech Cominco Alaska contracted to have designed and constructed a 3,000-ton Flotation Module 2030 and 1,000-Ton Powerhouse Module 6030 were the first modules built in Alaska specifically for the mining industry.

### Project Detail:

- Our in-house steel detailer provided the Engineering and Shop fabrication drawings for both of the modules.
