

### Project Scope:

Great Northern Engineering has an ongoing agreement with Integrity Environmental LLC to provide Spills Prevention, Control & Countermeasure (SPCC) inspections and occasional engineering services as required.

### Project Detail:

- An understanding of the provisions and requirements of 40 CFR 112.
- Examination of the proposed or existing operations and plans.
- Confirmation that the SPCC Plan has been prepared in accordance with good engineering practices with considerations for applicable industry standards.
- Confirmation that facility specific procedures for required inspections and testing have been established.
- Professional judgement that the plans and procedures are adequate for the facility.
- SPCC inspection of the fueling systems and bulk fuel storage facilities in: Seward, Skagway, Whittier, Juneau Goldbelt, Juneau Auke Bay, Cordova, Craig, Homer, Cold Bay, Wrangell, Adak, Bird Creek, Girdwood, Kodiak, Petersburg, Sitka, and Ketchikan.
